

COMPUTER EXPLORERS

Date: Sept. 4, 2008

Dear Parents:

We are offering two new COMPUTER EXPLORERS programs for Cedar Montessori students ages 3-5.

TechTots provides curriculum and activities specifically designed for children age 3. Using explore-and-discover learning, this building-block program emphasizes mouse skills, keyboard familiarization, click-and-drag techniques, etc. Parents receive weekly take home materials. Cost of this program is \$48 per month. There is a one-time registration fee of \$12.

Around the World is a 36-week program that provides curriculum and activities specifically designed for children ages 4-5. This world tour explores diverse cultural communities where children speak Spanish, French, Japanese, and English. Students will practice basic vocabulary in each language by using interactive computer programs as well as singing songs, playing games, creating artwork, and celebrating cultural festivals! Each language will be explored for 12 weeks. Cost of this program is \$150(\$12.50/week) for each 12-week session. **A minimum number of enrolled students must be met in order for course to be offered**

Classes will be taught on Monday, Tuesday, and Wednesday afternoons and are 30-45min in length. If you'd like to sign up, click on the registration form link, print it, fill it out, and give it to the front desk.

If you have any further questions, feel free to contact me at (239)287-1617.

Sincerely,

Tilda Morris
